

“Art Walk” tours in historical district of Beppu

Join a tour in the historical district of Hamawaki in Beppu to walk around a place that keeps the memory of the traditional architecture and learn a bit more about the culture of Japan in this genuine area.

At the end of the tour, discover a jewel of contemporary art hidden in this place: a 100 years old Japanese house revived by the artist, Satoshi Hirose, on the occasion of the “Mixed Bathing World” Beppu contemporary art festival 2012*.

The two parts of the “art house” are an invitation to live a perceptual experience...

(* run by the NPO BEPPU PROJECT which manages contemporary art and creative projects in the context of Beppu city.)
